Admission Requirements

- Academic Progression Standards**

To progress into upper-division coursework, students must earn a C or better in ALL prerequisites in **two attempts or fewer**. Drops after the add/drop period are considered an attempt in the course.

- Completion of Associate in Arts (AA) degree
- Cumulative Transfer GPA: 2.0
- To be fully admitted to the program, MAC 2311 must be completed with a grade of C or better.

Special Notes

- It is highly recommended that you complete all of your math and science prerequisites shown below before transferring to FIU to avoid Excess Credit Surcharges after transferring to FIU with an AA degree.
- Engineering students should take math and science courses every term at PBSC in order to make efficient progress towards the degree. Delaying math and science courses effectively delays graduation as such courses are prerequisites for upper level engineering coursework at FIU.
